

Mennonite Emigrants from Russia and Prussia passing through the Port of Hamburg: 1890 – 1899

Glenn H Penner (gpenner@uoguelph.ca)

The following table is the result of a careful searching of the passenger lists of those passing through the port of Hamburg, Germany from 1890 to 1899. These lists are available to subscribers to Ancetsry.com, which has a wide range of searching capabilities.

Important – this list includes **only those who passed through Hamburg** on their way to North America. Not all Mennonite immigrants to North America passed through Hamburg. Although nearly everyone in the list ended up in Canada, there are a few families included who travelled directly from Hamburg to New York and on to the United States.

This list started with the 1890 to 1898 list compiled by Richard Thiessen (last revised in 2008) that consisted of 667 individuals and was constructed from the now defunct Hamburg archives ship list web page. The three most important aspects of the new list are a) inclusion of the “Bisheriger Wohnort” – the family’s previous residence, b) the addition of over 400 new people, and c) assignment GRANDMA database numbers to nearly everyone (over 95%) on the list.

This list contains the names of 1,123 Mennonites. Note that the list was not constructed, as many previous lists, by simply assuming that everyone with a Mennonite sounding name was a Mennonite, or that everyone whose final destination was Gretna, Plum Coulee, Winkler, Morden or Rosenfeld should be included. I have been able to assign GRANDMA database numbers to 1,072 out of 1,123 of the people in this list and am confident that all of the people on this list were indeed Mennonites when they left for North America.

Guide to Columns:

- 1) **Departure Date** – this is the date of departure from Hamburg.
- 2) **Page** – this is the page number which appears at the top left-hand corner of most of the passenger lists.
- 3) **No.** – this is the passenger number, as it appears in the ship list.
- 4) **Surname** – this is the *standardized* surname. Surnames in this column were standardized in order to make them recognizable. Many names are badly misspelled in the original passenger lists.
- 5) **Given Name** – as it appears on the original passenger list. The name of each head of household is highlighted in orange.

- 6) **Previous Residence** – given as “Bisheriger Wohnort” in the original. These have all been standardized to conform with currently recognized spellings.
- 7) **Country** – the country of origin.
- 8) **Age** – as determined from the ship list. All ages given as months or fractions of years have been converted to multiples of 1/12 of a year (month).
- 9) **Birth Year** – the birth year range, based on the ship list age.
- 10) **Destination** – for most passengers this appears to be the last railway stop from which they were planning to disembark. These are all modified to conform with modern spellings.
- 11) **i/d** – This column indicated whether the ship the passengers boarded was travelling directly to North America (**d**) or indirectly through the United Kingdom (**i**).
- 12) **GM#** - the number of the person as found in the in the GRANDMA database as of 1 Feb 2020. See [here](#) for more information.
- 13) **Comments** – provides the original spelling of some of the surnames, “in quotes”. Everything with quotes is taken directly from the original lists. My comments are not in quotes.

Note that some cells in the table are highlighted in grey. In these cases, the information is either unreadable, missing or unavailable at the time.

Note: this information is also available as an [Excel file](#).
