There is little information on Yakovlevo (Jakowlewo). It was also known as Eigenfeld or Eugenfeld and belonged to the Yakovlevo colony, a daughter colony of the Chortitza settlement. There is essentially no information on this colony in the GAMEO online Mennonite encyclopedia. Some information is available here: <https://chort.square7.ch/FB/D0148.html> .

The following is a translation of a document obtained from the Zaporizhia archives in Ukraine. A scan of the original document is available here: <https://chort.square7.ch/Pis/Jak20.pdf>. When possible, the numbers for the heads of households, as found in the [GRANDMA](#) database, are provided.
