Rev. Johann Enns of Olgafeld, Fuerstenland Colony, performed the following 25 marriages between the end of 1917 and the end of 1922. Note that the tradition was that marriages took place at the residence of the bride's family. The exception was when a widower married. In such cases the marriage occasionally took place at his residence. Numbers for the bride and groom in the GRANDMA database are provided when they are known with reasonable certainty. It should be noted that, even though GM numbers are given, not all of the information in the list below is in the GM database and needs to be added at some point.

The original document was held by granddaughter Agatha (Enns) Ratzlaff, who was living in Clearbrook, BC, at the time photocopies were deposited at the MHA.
