

15 October 1801 Census of Kronsgarten, Chortitza, South Russia

Inventory of Odessa Archives, Fund (Collection) 6, Inventory 1, File 98

Extracted by Tim Janzen

This site makes available a census taken on 15 October 1801 of the village of Kronsgarten in the Chortitza Mennonite Settlement in South Russia. The original document was written in Russian and may be found on frames 65 to 68 of File #98 of the microfilm of selected files from Odessa Archives, Fund 6, Inventory 1. This census is included in a group of censuses of other non-Mennonite colonies in the original file. Additional detailed statistical data about crop production for each head of household in Kronsgarten is also found in German on the microfilm on frames 212 to 217 of File #67 but has not been extracted up to this point.

In the table of the census data I translated the given names to generally standard English spellings of the names.

In this census all Bartel families are listed with the surname Bartel Mewzen as was the case in the 1811-1816 census of Kronsgarten previously published on pages 873 and 874 of Karl Stumpp's book *The Emigration from Germany to Russia in the years 1763 to 1862*.
