Editing, introduction, and GRANDMA database numbers by Glenn Penner (gpenner@uoguelph.ca)

Diedrich Benjamin Schultz (1846-1908; GM#266858) was the founder of the "Firma D. B. Schulz u. Erben." The factory started with the manufacturing of winnowing machines and then to every type of agricultural machine in the Ukraine*. This file was constructed from the ledger of the Schultz factory in Osterwick, Chortitza Colony. The religion of each person is recorded. This made it relatively easy to identify the Mennonite employees. All employees were male. The patronymic for each employee is given as well as their ages. This aided the identification of individuals in the GRANDMA database.

* This information obtained directly from the GRANDMA database entry for D. B. Schultz. The original source is unknown.

The ledger in original order is presented first, followed by the ledger in alphabetical order by surname of worker.
