

Statement Regarding the Good, the Average, and the Negligent Proprietors from the Molochansk Mennonite District: 1843

Odessa State Archives Fond 6 Inventory 1 File 6929

Glenn H Penner
gpenner@uoguelph.ca

The document below is a translation of the Russian language document found in Fond 6 Inventory 1 File 6929 in the Odessa State archives in Ukraine.

All names have been converted from a transcription of the original Cyrillic script and put into standard, recognizable forms.

This document can serve as a bridge between the 1835 census and the 1847 list of property (Wirtschaft) owners found in the Molotschna colony voters [list](#). Note that not all property owners are found in this list. The reason for this is unknown. The document does not indicate the criteria used to determine the categories.

The summary at the end shows that just over 79% of those listed were considered good proprietors, about 20% were considered average, while just under 1% were considered negligent. Note that the newly founded villages had a lower percentage of good proprietors. This is not unexpected since it often took years for a village to properly establish itself.

| Good Proprietors | Average Proprietors | Negligent Proprietors |
|-------------------------|----------------------------|------------------------------|
| Halbstadt | | |
| Johann Neufeld | Abraham Harder | |
| Peter Groening | Peter Peters | |
