1842 (1857-60), 1939 (1862)**

Extracted by Glenn H Penner (gpenner@uoguelph.ca)

This is a listing of property transfers for the villages in the Molotschna Mennonite settlement, which includes the Molotschna settlement and the Hutterite villages of Huttertal and Johannesruh. It contains summary information on 1,397 property transactions. The original is **missing** the following 7 years: 1838, 1840, 1845, 1848-50 and 1861.

Note that I have designated the transfers of the *Anwohnerstelle* (house and yard owned by the landless) in the property number column with an “A” after the property number. Previous owners are not given for the *Anwohnerstelle*. If there is no “A” suffix the property was a *Wirtschaft* (house and yard associated with a full farm; also called a *Feuerstelle*). The term “*Gehülft*” (later *Gehülft*) is frequently used. The *Gehülft* appears to have been one who gave financial assistance to the buyer, but that is speculation on my part. Relationships between buyers and sellers are often noted. These are given in the comments column. The comments column gives only information directly derived from the original document – no other sources were used.

These records fit together nicely with the voters lists found [here](#), since only *Wirtschaft* owners could vote.

Note that some farms were being split and a purchase would be for only a half *Wirtschaft*, or two people purchased the farm, which was then split. Either way, only one owner per full farm could vote.

Names have been standardized to make searching and sorting this list more easily.

The first table presents the data in chronological order. Other tables display the data sorted by village, old owner, and new owner.
