

Table 6: Modified List of Mennonite Villages in Russia from the DAI Documents Prepared by Tim Janzen

This table is a modified version of Table 5 in which I have reviewed the original data and **changed the spellings of the villages and their Russian names to those which I have found more commonly used for these villages**. I have also modified the spellings of the colony names if appropriate. However, I have not changed any of the data regarding the year in which the villages were stated to have been founded, even if I felt the year given was inaccurate.
