File 906 in the Peter J. Braun archives contains an assortment of documents from the 1842-1844 period. One of these is a list of household heads who emigrated from West Prussia to Russia in 1842 and in 1844. These people are found on other immigration lists. The additional information which appears on this list is the occupation of the incoming person.

The document groups the immigrants according to their status with respect to immigration consent from the Russian government. This information is not included in my transcription. Note also that the names have been standardized. Since this list was originally written by a bureaucrat somewhere in Russia, the spelling of the family names in the document is of no genealogical relevance and cannot be used to infer, in any way, how the person actually spelled their surname!
