

22 Sep 1801 Census of the Hutterite Colony of Wischenka (Vishenka/Vyshenka)

State Archives of Odessa Region Fond 6, Inventory 1, File 50

In 1770 the remaining Hutterite community moved from Romania to the estate of Count Peter Alexandrovitch Rumyantsev near Kiev. In the spring of 1802 they moved to crown land and established the village of Radichev (see Tim Janzen's [1803 Census of Radichev](#)). This census was taken in September 1801, just a few months before moving. I have kept the original spellings of the names in this census.

At the end of the census there are a group of individuals and fatherless families. These were not given family numbers in the census.

The count at the end of the census is not correct. There are actually 102 male and 102 females on the list.

It should be noted that the Odessa State Archives Fond 6, Inventory 1, File 50 has over 800 pages of information on the Wischenka and Hutterite communities for the years 1801 to 1815. This includes a Russian census for the year 1806.
